OCTANORM MAGNETIC FIXING SYSTEM

For a perfect fabric presentation with the power of attraction

THE
WORLD
OF
SYSTEMS

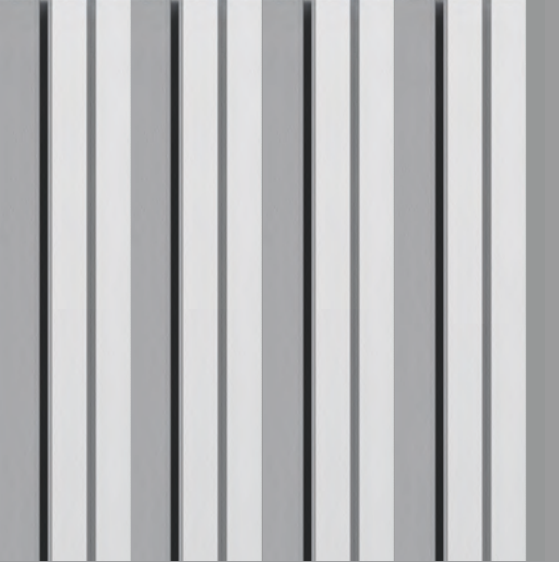

OCTANORM 

THE OCTANORM MAGNETIC SYSTEM ALLOWS VISUAL FABRIC GRAPHIC PRESENTATION

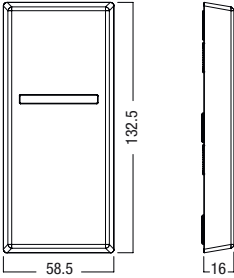

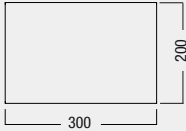

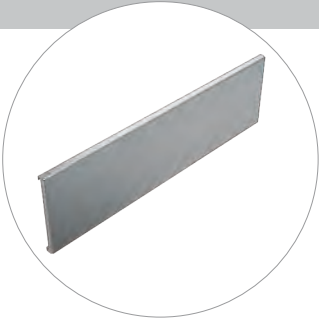

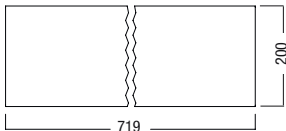

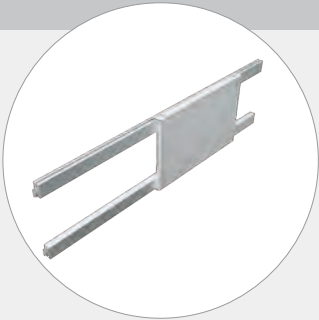

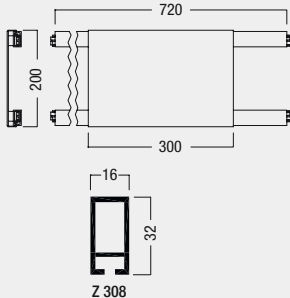

The huge value of our system is the universal magnetic wall retainer (max. load 5 kg) for mounting a variety of faceouts, shelves and literature holders, tried and tested fabric tension technique (extrusion M 1307) with bracing possibilities for large formats and single and double sided use. A further plus is the quick and easy change of fabric panels (silicone edge grap) and the quick change of displayed items. Sturdy aluminium framework and steel plates allow variable fixture locations. The system is ideal as a free standing display and to enhance retail environments.
