

cordless mobiLED panel

product information sheet

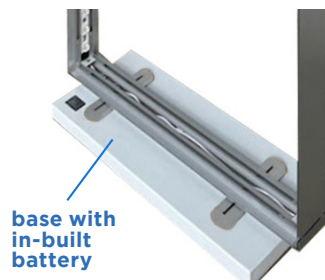

It's the mobiLED panel we all know and love but this time it's battery powered! This best-selling versatile display panel no longer requires mains power, opening up even more display possibilities. The double-sided illuminated panel measures 1m x 2m – perfect for making a statement at the entry of an event, exhibition or activation. Combine multiple panels for a wall effect. The mobiLED display comes in a lightweight, ABS, handy travel case and is super simple to assemble on site.

key features:

- Battery powered for up to 8 hours (at 72W) or 10 hours (at 54W)
- Lightweight and compact aluminium frame
- Quick and easy, tool-less assembly
- Large SEG fabric changeable prints front and back
