

café barriers

product information sheet

Custom printed Café Barriers provide a wide surface area for promotional branding and effective wind protection in hospitality and event environments.

Available in either traditional round tube or contemporary square tube variants to suit your environment, AFI Branding's Café Barriers are powder coated for a refined finish. Printed digital direct onto PVC vinyl, or even 'sock style' if required, AFI's Café Barriers can be teamed up with custom printed Market Umbrellas for maximum brand presence.

key features

- No assembly required
- Wind protection for patrons
- Vibrant colour output
