

dynamic lightbox

product information sheet

With customers wanting and expecting more, you can capture their attention with our choreographed, dynamic illumination alternative to digital signage.

Give the illusion of a moving image...without a moving image! The cleverly choreographed lighting highlights different areas of a still image. Whether that be text, graphics or certain parts of a photograph, the bright, bold and energy efficient LED lights will captivate and draw your audience's attention to where you want it to be.

key features

- Endless choreography options that can be reset anytime
- Interchangeable tensioned fabric graphics
- Energy efficient LED lights
- Quick & easy assembly
- Vibrant coloured graphics
- Manufactured here in Australia
- Available in both single or double sided options
- Powder coated frames available
- Can be easily reused, by simply reskinning and reprogramming
