

# mobiled counter

## product information sheet

### The perfect pop-up counter for any activation!

Whether it's for sampling, a live demo, an exhibition, welcome desk or a brand activation, AFI's illuminated counter will deliver maximum brand impact.

Featuring a large 1000mm x 1000mm replaceable front fabric panel, the lightweight ReFrame® structure boasts LED lights to bring any design to life and help your brand stand out from the crowd. Super portable with no tools required for assembly and a hard carry case (with wheels), the illuminated counter is the perfect travel partner for any mobile brand displays.

Designed for longevity, the illuminated counter can be used time and time again, simply updating the front fabric panel with new graphics for a new and fresh display.
