

mobiLED panel

product information sheet

Lightweight, double-sided, mobile lightbox display.

Easy to move, assembled without tools, yet stable. The mobile, illuminated panel is the perfect signage solution whether it's for a Point of Sale display, at a tradeshow, as an advertising board or for wayfinding signage.

A high level of even illumination makes the mobile, illuminated lightbox display truly stand out from the crowd. Combine multiple units to create an endless wall. Compact design and sophisticated cardboard carry-case allow for optimal storage and transport of both components and SEG digital prints.

key features

- Lightweight and compact aluminium frame
- Quick and easy, tool-less assembly
- Plug & Play LED lighting system
- Clever carry-case for true portability of frame and prints

specifications

Size	1000mm(w) x 2000mm(h)
