SS101 - single-sided ReFrame®

scan for
assembly video

1

Lay out the ReFrame® components on a flat surface and ensure you have everything required before you start the assembly.

CHECKLIST

4x Corner Brackets

4x ReFrame® Lengths

1x Allen Key

2 Insert corner brackets into the channels of the top and bottom lengths of frame (screws may need to be loosened to allow brackets to slide into position)

NOTE: To ensure a precise line-up of the frame profiles, do not tighten any of the screws until you have reached step 6

3 Slide top and side length together

4 Repeat on the opposite corner so that 3 lengths are connected

BRANDING

SS101 - single-sided ReFrame®

5 Attach the remaining two corners at the same time

6 Ensure corner is aligned and then tighten screws using allen key

7 Repeat step 7 on all remaining corners

8 Applying your custom ReFrame® fabric skin

Now that you've finished assembling your ReFrame®, it's time to apply your custom ReFrame® fabric skin. Please refer to either a printed 'ReFrame® Fabric Installation Guide' or go to www.reframe.com.au to watch one of our instructional assembly videos to see how to correctly apply your ReFrame® fabric skin.

NOTE: The assembly instructions for the SS101 (and included components) illustrate the fundamental steps to assemble a 'standard' Single-Sided type ReFrame®. If your ReFrame® is oversize, has additional components such as joiners (not shown on this fact sheet), accessories, or has bends/curves and you are unsure how to proceed with assembly, please contact the team at AFI Branding on 1300 652 514 and we will guide you through the assembly process.
